Manufacturers occasionally change product design and specifications. When these changes occur between publications of our catalog they are beyond our control. Therefore, certain product designs and specifications may be different than those illustrated in this catalog. We appreciate your understanding as these changes will occur. Also, practical production methods make it impossible to illustrate every product that we carry in this catalog. However, the products shown are generally the most representative of the manufacturer's line and or those in most common usage by the trade. Ice Melter

Peladow® Ice Melters

Unlike rock salt & potassium chloride, Peladow® calcium chloride readily attracts moisture from the atmosphere, allowing it to form a liquid brine very quickly and fan out beneath the ice, breaking its bond with the pavement. Other deicers lose their effectiveness quickly when they become diluted with water. But even when diluted to 20% concentration, Peladow® keeps working down to -4 degrees F. Penetrates & undercuts ice fast & keeps on working all the way down to -25 degrees F - long after other deicers have given up. Easier on concrete & vegetation. Doesn't leave powdery residue.

Safe Step® Pro Series™ 960 Choice Formula Ice Melter

Uses a blending process to ensure uniform distribution of optimal ingredients, allowing them to work together for maximum ice melting power. Perfectly sized granules formulated with MG 104® provide better melting and complete ice penetration, lasting 2 1/2 times longer than conventional ice melters. Although tough on ice, it is still safer for people, pets and vegetation. Won't harm concrete, carpets or floors when used as directed. Melts ice down to -10° F. Contains fewer chlorides, is less corrosive, and more environmentally friendly.
